

**Science, Technology and Society @ NJIT:
Focus on Environmental Studies and Communication**

Students who enjoy subjects based in language and the social sciences, and have strong interests in the relationship between humans and their material environments may consider the Environmental Studies and Communication option within the STS degree.

In addition to STS core courses and the NJIT General University Requirements, students in this option choose among the courses listed below, in addition to many others offered at NJIT and Rutgers-Newark.

- Arch 403 The American Home and Household I
- Arch 404 The American Home and Household II
- COM 351 Documentary Studies
- COM 352 Non-Fiction Writing and Digital Photography
- Hist 334 Environmental History of North America
- Hist 345 Communication through the Ages
- ID 330 Human Ecology and Culture
- STS 316 Mass Communications, Technology and Culture
- STS 344 Communications Policy
- STS 378 Literature and Nature
- STS 360 Ethics and the Environment

Graduates from the STS program who have followed the Environmental Studies and Communication option often seek careers and advanced degrees in:

- Environmental law
- Public health
- Corporate and government communication
- Environmental management
- Public and environmental policy and administration
- Environmental planning
