

## **Science, Technology and Society @ NJIT: Focus on Media, Aesthetics and Technology**

Students who enjoy subjects based in the arts of film and music and the technology that convey them, and those who have strong interests in the relationship between human material culture and aesthetic forms of expression may consider the Media Aesthetics and Technology major option within the STS degree.

In addition to STS core courses and the NJIT General University Requirements, students in this option choose among the courses listed below, in addition to many others offered at NJIT and Rutgers-Newark.

COM 350	Digital Video Production
COM 351	Documentary Studies
STS 316	Mass Communications, Technology and Culture
STS 344	Communications Policy
STS 347	Music and Technology
STS 348	Esthetics and Modern Technology
STS 349	Advanced Music Technology
STS 378	Literature and Nature
LIT 386	Science Fiction

Graduates from the STS program with the Media, Aesthetics and Technology option are encouraged to pursue careers that promote their creative and artistic abilities. These include work in media development, production and performance; curatorial work in archival and museum-based venues; and entertainment law.
